

CEILINGVIEW™

CEILING MOUNTED VISUALIZER

The Vaddio CeilingVIEW Visualizer is a complete ceiling-mounted visualizer system. Equipped with a high-resolution 680,000 pixel color CCD camera with a 25X optical zoom lens (12X digital) with auto-focus. The image is amazing. The camera has complete VISCA camera control capabilities that allow it to be controlled by any control system or video codec that uses the VISCA control code. Other features include a laser light locator for document positioning, six preset zoom buttons for switching between different paper sizes, image freeze and reverse image display. The camera housing is a metal plenum rated enclosure with ceiling tile supports. CeilingVIEW uses Vaddio's EZCamera™ Cabling System which allows the installer to use Cat. 5 cabling to run power, video and camera control.

- EZCamera Quick-Connect Wallplate or EZCamera Quick-Connect Box

TECHNICAL FEATURES

High-Resolution Camera

A 680,000 pixel color CCD camera with 25X optical zoom lens (12X digital) with auto-focus, auto-iris, and image stabilizer.

Laser Light Locator

Unique laser light shows user where to position a document by putting a red laser dot in the center of the image. Laser light can be controlled to work in momentary or ON mode.

VISCA Camera Control

Industry standard camera control protocol that allows camera to be controlled by any control system that supports the VISCA command code. CeilingVIEW can also be supported by any VISCA compatible video codec as a near/far end camera. This allows the operator the ability to do "zoom features" and control six presets.

IR Remote Control

Hand-held remote control allows user to control: zoom, six zoom presets, laser pointer, brightness, white balance, black and white, positive/negative, mirror, and auto or manual focus.

TECHNICAL FEATURES CONTINUED

Other IR remote control Options

The CeilingVIEW Camera can be field programmed to work with videoconferencing systems remote controls, including: Polycom's® Viewstation™, FX, 4000, and 900 Series and Tandberg® videoconferencing systems. A user adjustable DIP switch is located on the front of the CeilingVIEW.

Easy Ceiling Install

The camera is ready to mount in the ceiling with its plenum rated enclosure and ceiling tile support system. A trim ring provides for a "clean look" install.

Vaddio's EZCamera Cabling System

Allows installer to use Cat. 5 cable to run power, video and camera control. Video Balun technology is used to extend the range of the video signal and to allow it to work on Cat. 5 cable. The Vaddio PowerRite Camera Power System includes a high output power supply and a power regulator to maintain the right voltage over Cat. 5 cable. A EZCamera interface and converter is built into the CeilingVIEW camera. The first RJ-45 jack provides power and video, the second RJ-45 jack provides camera control signaling.

EZCamera Quick-Connect Wallplates

The single gang wallplate converts power, S-Video and composite video into a single Cat. 5 cable. The dual gang wallplate adds another Cat. 5 cable for camera control.

Vaddio's Camera Quick-Connect Box

This small interface box converts power, S-Video and composite video into a single Cat. 5 cable. Velcro® mounting square provided.
